KASHMIR

→ Lord Mountbatten
↳ Gave option to States boundaring both.

When India & Pakistan going to become seperate countries

- Maharaja Hari Singh of J & K → Continued to rule J & K.
- Nizam of Hyderabad
- Junagarh of Gujarat

that time 70% population of it was Muslim.
(Pakistan could not digest).

→ Pakistan sent intruders/tribals to J&K and create chaos. (law & order problem)
↳ So that 70% Muslims put pressure on king to join Pakistan.

→ But execution → intruders were burning/looting houses/rapes.
Thus J & K joined India → People of Kashmir were scared that Pakistan will give them second citizen status

(26 Oct 1941)
↳ 27 Oct Indian army reached Srinagar & pushed intruders.

any person living in J&K will get citizenship (others cannot buy land there).

This special status was given as they joined India.

if the J&K government wants to make law regarding any issues than 4, except those 4.

Central gov. will not interfere.

→ Special status was removed to integrate J&K.

(Divided J&K)

Into • J & K (UT) with Assembly (like Delhi)
• Ladakh (UT) without Assembly. (like Chandigarh)

Benefit → Became a tourist hub due to direct funding.

After Pahalgam attack,

→ 9 bases were destroyed, 11 air bases.

→ Indus Water Treaty was cancelled.

[Technical Ways (Missiles)] → 6 rivers, 2 rivers flow to Pakistan

↳ 100 terrorists and various camps were exposed.

→ Baseless right now.

→ Boycott Asian games as they are headed by Pakistan.

Mistakes with Kashmir
- No institution in Kashmir.
- Every state has its quota. But Srinagar was not recruited by army.

Israel-Palestine → Majority people are Jews.

Hitler (Germany)
↳ wanted revenge after Germany has to sign treaty after losing in World War I.
↳ hated Jews.

[6 million Jews were killed in World War II]
↳ 60 lakhs people were killed in holocaust.

Israel-Palestine

→ NATO gives support to any member of NATO if it is attacked.
↳ Russia did not allow it to join NATO.

24 Feb 2022 → Russia attacked Ukraine.

As most people of Crimea spoke Russia, it became a part of it.

Most of them supported Ukraine but

Putin → President of Russia
warned ↳ Any country which helps Ukraine, it may use nuclear weapon on them.

[Thus any country did not help ukraine by going inside → may result in WW-III.
(They now left their weaponary for them) Ukraine.

All countries of Europe
↳ Stopped trade with Russia to weaken the economy.
↳ India asked for cheap oil from India by 2 dollar less.
↳ Now whole world became anti-India for its purchase of oil.

only stopped taking oil (petrol, diesel)

↳ India now start giving facts.

↳ • Europe countries still taking gas from Russia (cannot survive without gas) to make it centrally heated.

During voting,
India did not go against Russia

Reasons: • 45% weapons are Russian based in India.
• Oil is imported
• Indo-China, (Russia is neutral for it)
China & Russia are good friends.

Over 2 years of war,
Russia and Ukraine do not have forces.

Russia → gave the order for 18-45 years old people to not leave the nations.
↳ and started asking for helpers.

↳ Now both nations want ceasefire.
(But their terms are different)
Russia → will not give back the states it has captured.
Ukraine → Russia will have to give back its states

Any construction of political importance will be of the country.

Benefit of India → All sea food, oil, mineral is of its.
↳ Any other country cannot take its sea resources of economic value.

↳ Philippene (2011) sent its ships to the South China sea (claiming it to be its EEZ).
↳ China shooted it.
↳ Philippene took it to International Court of Justice in Netherlands.

Gave judgements
- Claims Chinese lines wrong.
- Have to give EEZ to 2 countries
- Artificial enlargement of islands by China was claimed naturally disastrous

China refused to agree.

↳ American equipments were brought to Philippines.

QUAD
↳ Four countries came together to put pressure on China.

[India did not go against China till 2020].

• Work is done on Inter-Operability.

Taiwan → small island on eastern coast of South China Sea.

When communism in China came under Mao → all the resources of land belong to gov. (Landlords and businessmen fled to Taiwan).

After 2000, Taiwan was seen as seperate entity.

[Life firing is done by China around Taiwan to scare VIPs.

→ If China forces Taiwan to be its part, America will interfere.

Reason: • After Obama gov's ideology of America changed. (as Americans were getting killed for other countries).

↙ of America not being coming for help of Taiwan. ↗

Taiwan → 2 party system

Party I → (Merge with China)

Party II → Not go with China. (As people here had rights (human rights) unlike China).

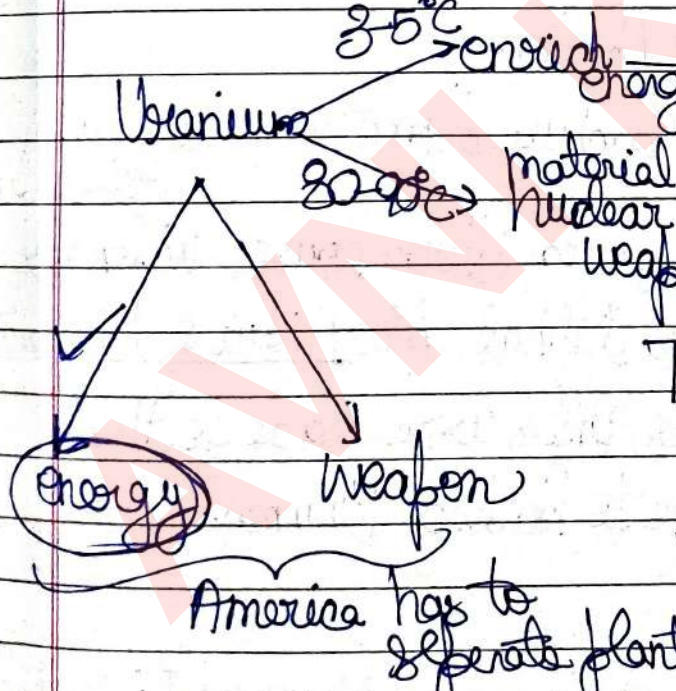
Indo-US Nuclear Deal

2008

President Bush & Dr. Manmohan Singh.

Uranium is required for nuclear weapon.

↳ No country is given it to India. (not signed the NPT).



Thorium in Kerala was converted to uranium in India for nuclear weaponary.

America has to seperate plants on 2 basis.

4 point policy
1. India will not use nuclear weapon first.
2. Not to be used against the countries which do not have nuclear weapon

② As long as possible, in war, India will go with the conventional methods.

④ If any country has started nuclear attack on India, India will end it till it is fully destroyed.

Self-Discription

My parents find me their most lovable daughter. They think of me of being a responsible kid with clarity of my ambitions and take quick decisions. I give due respect to my elder sister and relatives. I share the household responsibilities like daily in accompanying my mother in weekly ~~marked~~ grocery shopping. Whenever any important decision is taken by parents, they always include me in the discussion. They take me as the person I take my mother whenever I fix any aim, I put in complete hardwork to achieve it. ~~Whenever any important functions take place at home, I share additional responsibility smilingly.~~ But, my parents think that I eat a lot of junk food, which is affecting my health. Improving this, I will have more healthy food, in addition to doing aiming to become physically fit.

My teachers think that I am an academically bright student with a clarity of concepts. I pay attention to the class lectures and try to grasp as much knowledge I can. They access me to be regular with the class assignments and maintain punctuality. They think of me to be an all-round personality, who is inclined to art and craft, debate duke and can hold positions of responsibility like being the Council Member and the Head Girl of the School. They see me having good leadership qualities as I am to coordinate well with my team during group projects.

Whenever there is any intercollege debate competitions, my teacher always forward my name.

Page:
Date:

But they ~~think~~ core of opinion that I devote less time for the sport activities, to improve on that, I have will start playing badminton more often to remain ~~physically fit~~ healthy.

My friends think of me being a more studious child. They always choose me as a leader / coordinator for the school projects. They ~~are~~ think I write good poems and excel in creativity. ~~They I also~~ They also think I am hardworking and always go by planning. ~~They~~ I am an extrovert personality only with the closest friends. I devote time for games and fun activities but my friends think that I always prioritise my academics. To improve on that, I will manage a bit of time on both and try to be more lively and ~~also~~ good in sports as well.

I think that I am an ambitious personality. I ~~remain~~ am focussed and remain hardworking throughout the journey. I never get up while facing challenges. In the task I do, I am an inquisitive child with a curiosity to learn more, be it in academics, or in extra-curricular activities. I enjoy doing sketching, calligraphy, poem writing, thus I have a creative ~~mind~~ edge to my personality. I focus on weaknesses and tried my best to overcome them.

I was the council member & Head Girl of my school.

My project was declared one of the best in the science exhibition.

As physical fitness is important for defence forces, I am maintaining a healthy diet.

~~I would like to experience while~~ gain more

I would like to improve my games.

They think of me organising a get together.

~~My of~~ my friends share confidential things with me knowingly I will never discuss it.

I have a number of friends, from will simple, straightforward and honest.

I stand by them during good and bad thing.

They think I always motivate them to be a law abiding citizen.

My teacher one of the views whenever any task is assigned to me, it is done without any supervision and completed before time.

My teacher wants me to update myself in national—international affairs.

To improve on this, I am reading newspaper to enhance ~~my~~ on this.

Whenever an important event is held, my teacher always forwards my name in the organising committee.

However, some of my friends think, I forget them to wish them on their birthdays / don't join them for late evening parties.

ENTRY

→ You must be an early entry in a discussion.

→ Never regulate, i.e, you must never say that we will start from one side and speak one by one.

→ **Body language**

Your body language must be strong.

- Your voice must be loud & clear.
- Remain seated during the discussion.
- Never use foul language. Don't use slang.
- Never point finger at others.
- Never touch a person sitting on your left or right.
- There should be no awkward body movements. However, normal body movements are allowed.
- Normal head gesture is allowed, which give clarity to your expressions.
- More often, they allot 7-8 candidates which start speaking at the same time. If this happens, then it is best to keep quiet and speak a little later.

Tussle 7/8

- The GTO will handle the tussle and ensure that each one of you gets a chance to speak.

- The progressive group task consists of a set of 4 obstacles which are progressive in nature.
- The first obstacle of this task is very very simple.
- The second obstacle is very very simple.
- The third obstacle is very simple.
- The fourth obstacle is absolutely simple.
- In the absence of natural obstacles like rivers and nalas in SSB, they drop a start line and finish line like white bricks.
- The area between start and finish line is placed out of

bound for the candidate and the helping material.

- In this out of bound area, some structures are placed.
- To help you in crossing the distance from the start to finish line, you are then provided with helping material in the form of ballies, planks and ropes and small pieces of wood.
- To add to your difficulty, a black box called the load is also provided to you.
- Every game has its rules. Hence, this task also has some rules. Listen to the rules carefully as the GTO will spell out these rules only once and these rules will come handy in all the subsequent outdoor tasks.

Rules

① Group Rule – All the candidates, the helping material and the load will cross the first obstacle before you go to the second obstacle.

② Distance Rule – Any distance which is vertically, horizontally or diagonally, 4 feet or more you cannot jump that distance. You have to you use the helping material to reduce the gap and cover the distance.

☆ Note – You must have good idea of 4 feet.

③ Rule for Infinity – The start line and the finish line is marked by 12-14 feet. But assume that it extends to infinity on either side.

④ Rule for Helping Material – There are basically 7 rules under this rule.

1. 2 solid helping materials cannot be tied together.
2. 1 solid helping material can be placed on another solid helping material.
3. A solid helping material can be placed or tied to any structure which is white in colour.

4. Rope can be tied to a single solid helping material.
5. Rope can be tied to any structure which is white in colour.

Note 1: The location of the rope must be correct.
Note 2: The rope must be tightly tied.
Note 3: The rope must be secured with a knot.

6. If you have more than one rope and you wish to tie them together, then you may do so.

7. Rope can be coiled into a bundle and placed on any structure which is white in colour.
This helps in giving elevation.

(5) Rule for Colour — There are basically 4 colours in the SSB. These colours are — white, red, green/yellow/blue, and black.

White — This colour signifies peace in life. Hence it is inbound, for a candidate, the helping material and the load.

(6) Red — This colour signifies danger in life. Hence it is

totally out bound for the candidate, the helping material and the load.

Green/Yellow/Blue — You will find one of these three colours in the SSB. However, the rule says that you can stand on this colour. However, you cannot keep your helping material or load on this colour.
Yes, you can stand on this colour and hold the helping material and load in your hand.

Black — This colour is normally found at the ground level. It is hardly found these days.

(6) Rule for Load — The load wherever provided will be treated like a delicate object like a TV, baby or computer.
You have to carry the load with you from the start line of obstacle 1 to the finishline of obstacle 4.

- The load acts as a common responsibility which binds the group together.
- While working if you happen to break a rule, there

Date

is no need to worry, the rule says you must come back to the point where you started before you broke the rule.

Demonstration

- The GTO will now take you around and show you all the obstacle.
- He will explain each and every obstacle to you. He will show you each and every structure. He will not hide anything from you.
- The GTO will then place you at the finish line of obstacle 4.
- He will then ask you as to how much time you need to do these 4 obstacles.
  You must stay quiet unless he looks at you and asks you how much time you need to do all the obstacles.
  [Can say about half an hour].

Date

- The GTO will then ask you to run to the startline of obstacle 1, with the helping material and start the task.
- The GTO will then quietly sit down on chair and observe you in doing the task. He will not speak to you unless it is very important.
- As far as possible, you must come forward and give workable ideas.
- Do not fight or argue with others.
- Every obstacle will have 3 approaches, one from the left, one from the right and one from the centre.
- The solution to all the structures in all the SSBs is based on the principle of cantilever.
  (one end fixed, one end free)
- As you proceed from PGT, to HGT to command task, you have to show more practical intelligence and ideas to complete your task.

Date

Briefing:

Working in a group or in a half group some of you may still feel that you have the ideas, but could not do the tasks in the manner you wanted to do.

- Keeping this at the background, each one of you in turn will be made commander of the task.
- This task consists of only one obstacle.
  All the rules are applicable.

AVNI KHATAR

- Time given to you to do the task is 15-20 min.
- By virtue of being the commander, you can choose any 2 friends to help you with the task.
- Hence, in the command task you have 2 roles to perform. The main role is that of the commander and the secondary role is that of the subordinate.
- Thereafter the GTO will call you in a random manner, and one by one put you through the task.
- This way he will conduct the command task.

Role as Commander

Date

- This is the only time when you and the GTO will be all alone in the ground.
- The GTO may ask you some questions related to PI, preparation and performance. Answer him intelligently.
- The GTO will then explain the task to you.
- Watch the helping material and structures carefully.
- Choose 2 friends quickly. This should be those candidates who are doing well in the group.
- Never bother about caste or religion. Preferably one of the candidate must be thin and tall and the other slightly heavy.
- Once the subordinates come, place them next to the startline and do the small briefing as follows:-

① Chest No. 1 and 2 this is our task.

Date

② Explain the helping material.

② Explain the startline and the finish line

④ Explain the task.

⑤ Rules you know, Let's start.

- As commander, you must be able to solve the task assigned to you.
- As commander you must work.
- As commander, enter the task first and remain in a position from where you can exercise, control over your men and material.
- Do not ask any suggestions from your subordinates, if any subordinate talks, ask him not to speak unless spoken to.

In task in hand is called HGT, in which your group will be divided into 2, same task will be given in a manner that when first group is performing, other is not allowed to see.

There is only one obstacle like in PGT and all rules of PGT are applicable here except for group.

Time: 15 min each.

Individual Obstacle

This task consists of a set of 10 obstacles which you would be required to do individually, one by one in a

Date

period of 2 min.
One the obstacles are shown you will find that each obstacle has a number written from 1 upto 10 next to the obstacle.

The no. found in the obstacle the points you will score if you complete that obstacle successful.

You will also find these obstacles are not arranged in numerical sequence. Hence, you are permitted to start with any obstacle and adopt any sequence.

If while doing the obstacle, you get stuck on it, then if you wish you may leave that obstacle for the time being and return to that obstacle in the last.

If you are able to complete all 10 obstacles within the given time, you will get 55 points.

Where you can score more than max. pts, i.e, if you have successfully completed all the 10 obstacles and still time remaining, then in balance of time you can repeat

Some of the obstacles which will fetch you additional points.

↳ You can only repeat after successfully doing all obstacles and while repeating, cannot repeat same obstacle again and again.

Individual Obstacle Briefing

- The individual obstacle consists of a set of 10 obstacles, which you have to do in a time span of 2 minutes
- Each obstacle has a number on it which indicates the point that you will get on successful completion of that particular obstacle.

AYNIKATAR

Date

- These obstacles are not serially arranged which means you can start from any obstacle you wish to.
- This is one task where you can score more than 100% marks which means repetition is allowed.
- However to repeat any obstacle for the second time, you must do all the 10 or 8 obstacles once.
- If you repeat any obstacle for the second time then you will get that many extra points as indicated next to the obstacle you have repeated.
- If you do all the 8 obstacles, then you will get 26 points.

Demonstration

- The GITO will now take you around and show you all the obstacles.
- He will explain each and every obstacle to you.

ANKIT TAR

Date

- He will ask one candidate to come forward and give a demonstration.

Note:
Individual obstacle is a challenge created for young boys and girls wherein 10 obstacles of varying complexities are placed on ground which you have to do in a challenging time of 2 min.

In meeting this challenge, true qualities of the candidates emerge.

Timming: The GTO has a whistle and a watch with him.

- He will start from the first candidate who will get up, run and go and stand behind any obstacle he wants to start with.
- To start him off, the GTO will blow the whistle once.
- After 2½ minutes the GTO will shout next, which means the 2nd candidate will get up, run and go and stand behind any obstacle from where he

Date

wants to start.

- After 2 minutes, the GTO will blow the whistle again which means time for the 1st candidate is over and time for second candidate has started.
- This way one by one GTO will put all the candidates through the task.

Important Aspects

Make a good plan to do the obstacles.

- The plan should be such that min time is spent on running and max in doing the obstacles
- Obstacle No. 8 you must do badly.
- Obstacle No. 4 you must do towards the end as it takes max time to do and gets up you 4 marks only.
- You must run 3-4 km everyday and do some exercise (Each one of you must get yourself medically examined).

How to Start Narration

Friends, the picture shown to us has 2 characters 2 males and a female in the age group of 20 to 30 years. My story revolves around Ria, a 19 year old B.Tech student, in a mood which I would like to narrate now.

Imp points

1. The candidate must be louder that their normal voice.
2. Candidate must give a pause whenever required.
3. Must speak with confidence.
4. Candidate must finish the narration within a minute.
5. Don't panic if you forget the story.
   Say two general lines on the subject and then connect to story.

- When more characters are shown in the picture, pick up imp characters from picture, draw their circles and other parameters for them.

During discussion

1. Enter discussion at the earliest.
2. Shouldn't make the discussion bilateral.
3. Raise the voice.
4. Don't cut anyone's points
5. You must speak 5-6 lines during your turn.

If your story is going against the group

Eg:

Friends no doubt that my story was written on crimes against women, however with the interest of the group even I would want to go for the story tree plantation as - - - - - - - -

Hence in the interest of the group, tree plantation as a story is good.
